Deadline September 20, 2021

UNITED NATIONS
UNIVERSITY

UNU-BIOLAC

Programme for Biotechnology in
Latin America and the Caribbean

Webinar series - November 2021

High content and high predictive cellular models

for host-pathogen interactions studies, disease modeling and drug discovery

November 3rd - 10 to 13 h (GMT-3)
General aspects of 2D and 3D cellular systems

November 10th - 10 to 13 h (GMT-3)
3D cellular systems: organoids and organ cultures

November 17th - 10 to 13 h (GMT-3)
Organ on a chip, microfluidics and imaging

November 24th - 10 to 13 h (GMT-3)
Cellular models for host-pathogen interactions studies, disease modeling and drug discovery

ORGANIZERS

Mariela Bollati-Fogolín

Romina Pagotto

Institut Pasteur de Montevideo

cursos@pasteur.edu.uy

CONFIRMED SPEAKERS

Paula Alves (PRT)

Claudio Berli (ARG)

Marilia Z Guimarães (BRA)

Leonel Malacrida (URY)

Gustavo Mostoslavsky (USA)

Giulia Nigro (FRA)

Horacio Rodríguez (ARG)
